USSR RAIL LINE SEARCH FOR ICBM ACTIVITY

This report presents the results of a search, for ICBM activity, of all rail lines in the USSR covered by photography [redacted]

25X1

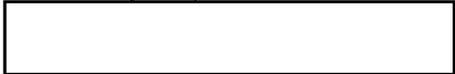

25X1D

This search has negated, in terms of ICBM activity, approximately 36,500 nm of Soviet rail line and has produced no evidence of ICBM activity that has not been previously reported. Of the 36,500 nm of rail line, approximately 6,000 nm was negated [redacted]

25X1

25X1D

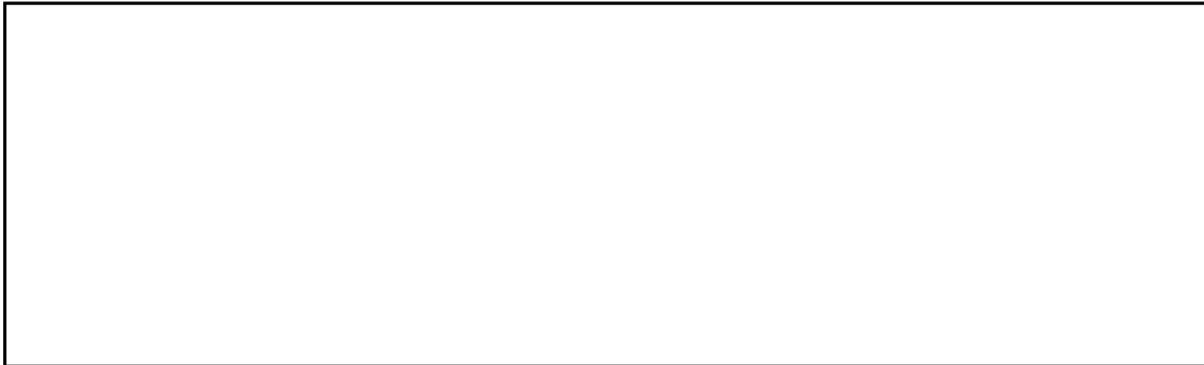

\* Broad-gauge main, branch, and spur lines connected to or a part of the main USSR rail network.

NPIC/R-11/62

25X1 A total of 62 overlays to World Aeronautical Charts (WACs) showing  
all rail lines covered by [redacted] photography and ICBM-negated on the  
basis of this search has been prepared. These overlays also show the  
25X1 location of all ICBM launch complexes identified to date and indicate the  
[redacted] mission and pass number. Copies of the 62 overlays, which  
25X1 constitute a Graphic Supplement to this report, have been forwarded to  
the CIA requester; to the [redacted] Control Officers of Army, Navy, Air  
Force, and NSA. Further reproduction and dissemination of these overlays  
to subordinate commands will be the responsibility of the above agencies.
